## Safety Tip of the week:

**As Income Tax season approaches many people are out shopping and handling major cash transactions, please be vigilant and aware of your surroundings at all times. Here are a few things to consider when using ATM's. This is very important and helpful.**

- **Maintain a small supply of deposit envelopes at home or in your car or office. Prepare all transactions prior to your arrival at the ATM site. This will minimize the amount of time spent at the ATM.**
- **Maintain an awareness of your surroundings throughout the entire transaction. Do not become so involved with your transaction that you are not aware of changing conditions around you.**
- **Do not wear expensive jewelry or take other valuables to the ATM. This is an added incentive to an assailant**
- **Be aware of anyone sitting in a parked car in close proximity to or at a distance from the ATM location.**
- **When leaving an ATM location make sure you are not being followed. If you are being followed, drive immediately to a police, sheriff or fire station, crowded area, well-lighted location or open business. Flash your lights and sound your horn to bring attention to your situation.**
- **If you are involved in a confrontation and the attacker is armed with a weapon and demands your money or valuables, COMPLY.**

### **Special Attention:**
